

Balloon Relay

You'll need:

- Several large inflated balloons
- Brooms (3 or 4)
- A whistle or horn

How to play:

- Divide the group evenly into two or more small groups.
- Each team forms a circle.
- A balloon is placed in front of the tallest player on each team.
- On the signal, the players use the brooms to sweep the balloons around the outside of the circles and back to their original places.
- Each player then hands the broom to the player on the left who continues to sweep the balloon around the circle.
- Each player takes a turn. The first team to finish wins.
- If the balloon breaks, the team must start all over. (Have extra inflated balloons on hand.)
